

# Free Energy Code Training for Plans Examiners & Building Inspectors

## ***New!* Building Energy Standards Essentials for Plans Examiners & Building Inspectors**

Building energy codes are complex. Plans examiners and building inspectors are expected to understand and enforce multiple codes. Conflicting priorities, time, workforce and budget constraints impact ability to deliver energy savings. This ***new, hands-on*** course strives to provide plans examiners and building inspectors with the knowledge and skills needed to more quickly and effectively enforce the energy code for residential and nonresidential projects.

Join us for our residential and nonresidential courses to:

- Understand the 2008 building energy efficiency standards for new construction, additions, and alterations
- Understand the purpose of each of the compliance forms and related documents
- Effectively communicate energy efficiency compliance options and requirements to permit applicants
- Apply your knowledge of the Standards to typical job tasks

For more information, contact: Jill Marver, [JKZ1@pge.com](mailto:JKZ1@pge.com), 925-415-6844

Training is sponsored by the Statewide Codes and Standards Team and can be provided at a facility in your local jurisdiction.

Continental breakfast and lunch may be provided.

All participants will receive a comprehensive workbook and tools they can use back on the job.

This program is funded by California utility customers under the auspices of the California Public Utilities Commission.
